Maintain Safe Operation of Assets and Equipment

Often widely dispersed and used by a number of employees or contractors, assets and equipment represent a substantial investment to any organisation. However, if not properly managed and maintained, they can pose a significant risk to employee safety, business operations and profitability.

The Assure Asset module provides complete visibility of the maintenance, testing requirements and compliance of assets and equipment, including the registration, testing and inspection of equipment and PPE, across your organisation.

Maintenance and testing dates generate automated notifications, providing local visibility of impending

deadlines and compliance requirements. Equipment or PPE can be assigned at an individual level and return reminders can be set. Information on faults or defects can be easily collated.

The module creates a comprehensive register of assets and equipment, which can be linked to other vital information, including projects and users, policies and guidance notes, maintenance and test dates and safety incidents. You can track follow-up actions through to completion, ensuring a full audit trail. All records can be easily retrieved.

Our Insights+ Business Intelligence tool allows you to easily highlight trends, track leading indicators and predict effective preventive measures.

Why Assure Asset?

- Maintain accurate and up-to-date assets and equipment issue records
- Provide complete visibility of maintenance and testing requirements
- Help promote a proactive approach to preventive maintenance across your workforce
- Maintain PPE issue records and assign responsibility for specific items of equipment
- Align scheduled maintenance with risk assessments and training requirements
- Ensure inspections are performed consistently, according to exacting inspection standards

Features

- Create an Asset Register
- Record and track assets
- Track actions and their status to close-out
- Automate reviews and inspection reminders
- View data insights and KPIs via interactive dashboards

Asset

What's included?

- **Equipment Register** – Log and keep track of equipment and assets across your organisation.
- **Equipment Issue** – Assign equipment or assets to individuals. Schedule reminders for return/testing.
- **Lifting Equipment** – Manage lifting equipment information. Schedule reminders for test dates in line with LOLER requirements.
- **Equipment Maintenance** – Manage inspection information. Schedule reminders for test dates.
- **Electrical Testing** – Manage electrical testing information. Schedule reminders for test dates.
- **RPE/PPE Maintenance** – Manage maintenance information. Schedule reminders for test dates in line with RPE/PPE testing requirements.

Proactively Manage Safety with Assure

Assure comes with a suite of standard features that support effective health and safety management. Create a flow of information by capturing data on the mobile web app AssureGO+. This triggers notifications to prompt next steps and ensures that any required actions are closed out efficiently and effectively.

All activities can be visualised and analysed in easy to use, configurable dashboards. This enables organisations to make the right strategic decisions to drive continuous improvement.

Reference	Organisation/Equipment Name	Location/Equipment Type	Purchased Date	Review Date
00032	St James's Park	Emergency Lighting	24/09/2017	27/04/2022
00054	St James's Park	Office Lighting	18/02/2017	27/04/2022
00053	St James's Park	Electrical (Fixed)	17/03/2017	27/04/2022
